Topology Workshop in the Negev

Beer-Sheva, June 26, 2023

Program of the Workshop

The Conference is focusing on some aspects of Dimension in Topology.
The program consists of 4 lectures delivered by the following speakers.

Speakers:

Alexander Dranishnikov (University of Florida, USA)
        "Moving manifolds in the Gromov-Hausdorff space"
Mikhail Katz (Bar-Ilan University, Israel)
        "Generalizing Gromov's optimal stable systolic inequality"
Tom Meyerovitch (Ben-Gurion University, Israel)
        "Equivariant embedding of finite-dimensional dynamical systems"
Victor Vassiliev (Weizmann Institute, Israel)
        "Homology of spaces of equivariant maps"

The Organizers:
Michael Levin, e-mail: mlevine@bgu.ac.il
Jeremy Siegert, e-mail: siegertj@post.bgu.ac.il
