

Department of Mathematics, BGU

Colloquium

On Tuesday, January, 5 2016

At 14:30 – 15:30

In Math 101-

Uzi Vishne (Bar Ilan Univeristy)

will talk about

Linkage of quadratic Pfister forms

Abstract: The algebraic theory of quadratic forms connects fascinating topics, from Hurwitz' theorem and Hilbert's 17th problem, to the theorems of Voevodsky-Orlov-Vishik and Voevodsky-Rost on the Witt ring and Milnor's K-theory, and beyond.
