

Department of Mathematics, BGU

Colloquium

On Tuesday, November 28, 2017

At 14:30 – 15:30

In Math -101

ITAY KAPLAN (HEBREW UNIVERSITY)

will talk about

On dense subgroups of permutation groups

ABSTRACT: Joint work with Pierre Simon. I will present a criterion that ensures that $\text{Aut}(M)$ has a 2-generated dense subgroup when M is a countable structure (which holds in many examples), and discuss related subjects.
