

Department of Mathematics, BGU

Colloquium

On *Tuesday, March ,12 2024*

At *14:30 – 15:30*

In *Math 101-*

Orr Shalit (Technion)

will talk about

A glimpse into noncommutative function theory

Abstract: In the past twenty years a research area called “noncommutative function theory” came into being, drawing researchers and ideas from complex analysis, operator algebras, control theory, algebraic geometry and free probability (maybe I forgot some). In this talk, I will do my best to explain what this is about and why this field is in blossom.
