

Department of Mathematics, BGU

Combinatorics Seminar

On Monday, April ,16 2018

At 14:10 – 15:10

In 101-

Charles Wofl

will talk about

Applications of the Container Method

Abstract: The Container Method, developed in 2015 by Balogh-Morris-Samotij and Saxton-Thomason, has produced numerous applications in combinatorics. We will discuss applications to triangle free graphs and an Erdos discrete geometry problem.
