*On Thursday, June ,24 2021*

*At 11:40 – 12:30*

*In Physically (at building ,32 class (111*

Eitan Bachmat (Ben-Gurion University)

will talk about

**Heaviest increasing subsequences and airplane  
boarding**

Abstract: We consider some conjectures (and a few results on maximal increasing subsequences) which are motivated by airplane boarding.

**Please Note the Unusual Time and Place!**
