

The Department of Mathematics

2021-22-B term

Course Name Prodability and Statistics For Software Engineering

Course Number 201.1.2381

Course web page

https://www.math.bgu.ac.il//en/teaching/spring2022/courses/prodability-and-statistics-for-software-engineering

Lecturer Dr. Guy Landsman, <glandsman@post.bgu.ac.il>, Office

Office Hours https://www.math.bgu.ac.il/en/teaching/hours

Abstract

Requirements and grading¹

Course topics

1) Probability space 2) Law of total probability 3) Conditional probability, independent events 4) Bayes' law 5) Discrete random variables. Discrete distributions: uniform, Bernoulli, binomial, geometric, Poisson 6) Continuous random variable. Continuous distributions: uniform, exponential, normal 7) Discrete two-dimensional joint random variables 8) Independence of random variables 9) Expectation 10) Variance, covariance, correlation coefficient

¹Information may change during the first two weeks of the term. Please consult the webpage for updates
