

The Department of Mathematics 2022–23–B term

Course Name Ordinary Differential Equations for Industrial Engineering and Management

Course Number 201.1.9481

Course web page

https://www.math.bgu.ac.il//en/teaching/spring2023/courses/ methods-of-mathematical-analysis

Lecturer Dr. Irena Lerman, <lerman@post.bgu.ac.il>, Office מינוס 110

Office Hours https://www.math.bgu.ac.il/en/teaching/hours

Abstract

Requirements and grading¹

Course topics

Ordinary Differential EquationsBasic concepts: ordinary differential equations, differential equations of the first order, general solution, initial value problems, partial solutions. Linear differential equations with separable variables, exact equations, integration factor, homogeneous equations. Existence and Uniqueness theorem (without proof). System of differential equation of first order, solution by matrixes. Linear differential equations of second order, non-homogeneous equations, Wronskian. Linear differential equations of n-th order.Integral TransformsLaplace transform, properties of the Laplace transform. Convolution of two functions and convolution theorem. Heavyside (unit step) function, ?-function (Dirac), particularly continuous functions, their Laplace transform. Solution of non-homogeneous differential equations by Laplace transform.Fourier transform, properties of the Fourier transform. Solution of two functions and convolution theorem. Convolution of two functions and convolution by Laplace transform.Fourier transform, properties of the Fourier transform. Solution of two functions and convolution by Laplace transform.Fourier transform, properties of the Fourier transform. Solution of two functions and convolution theorem. Convolution of two functions and convolution theorem. By Laplace transform.Fourier transform, properties of the Fourier transform. Solution of two functions and convolution theorem. Cosines and Sine Fourier transform. Solution of integral equations by Fourier transform.

¹Information may change during the first two weeks of the term. Please consult the webpage for updates
