### testing Expert

תינתן על-ידי

of School Kellogg and University Aviv (Tel Shmaya Eran  
Management)

תקציר: An expert provides probabilistic predictions about a sequence of future outcomes and the price of a stock. An expert provides the distribution of the price (for example, the reviews inspector price). The expert makes the prediction by observing some outcomes and applying some test to decide to test some expert. The expert's predictions of validity on literature testing expert "true a distinguishes that test some exists there whether provided who expert", "true a distinguishes that test some exists there whether strategically predictions concoct who "charlatan", a from predictions correct the my towards biased heavily literature, the of survey a give will I test. the pass to papers. own
