Announce

Short Conference in General Topology

Beer- Sheva, April 29 –April 30, 2004

Scope of the Conference

The Conference is devoted to recent progress in some areas of General Topology: Cardinal Invariants, Function Spaces, Topological Groups, Dimension Theory and related topics in the Geometry of Banach Spaces and Topological Dynamics. The program consists of one hour lectures delivered by the following participants.

Participants

Dikran Dikranjan (Udine University, Italy).
Vladimir Fonf (Ben-Gurion University, Israel).
Eli Glasner (Tel Aviv University, Israel).
Isaac Gorelic (Ben-Gurion University, Israel).
Sergey Gulko (Tomsk University, Russia).
Menachem Kojman (Ben-Gurion University, Israel).
Arkady Leiderman (Ben-Gurion University, Israel).
Michael Levin (Ben-Gurion University, Israel).
Victoria Lubitch (Ben-Gurion University, Israel).
Michael Megrelishvili (Bar-Ilan University, Israel).
Henryk Michalewski (Warsaw University, Poland and Ben-Gurion University, Israel).
Matatyahu Rubin (Ben-Gurion University, Israel).
